1. Identification

Product identifier used on the label

STYACRYL V 700

REACH Registration Number

*** This product is a mixture and therefore not directly subject of the registration requirements under REACH.

Recommended use of the chemical and restriction of use

Raw material, suitable in industrial sector. Paints, lacquers and varnishes industry, binding agent for decorative coatings

Details of the supplier of the safety data sheet

ROZACHIM AD
Anton Strashimirov 53
5100 Gorna Oryahoviza.
Bulgaria

www.rozachim.eu

Emergency telephone number

+359 618 60843 or 112

Other means of identification

Chemicals family : Polymer , Dispersion , Emulsion

2. Hazards

Identification According to Hazardous Products Regulations (HPR) in accordance with EC directives (№ 1272 /2008)

Classification of the product

Eye Dam. /Irritation 2 A Serious eye damage/eye irritation

Safety Data Sheet

According to regulation (EU) # 453/2010

STYACRYL V 700

Revision date: 2015/06/1

Version: 4.1

SDS EU/EN

Label elements

Pictogram: GHS 05

Signal Word: WARNING

Hazard Statement: H319 Causes serious eye irritation.
H210 SDS available on request

Precautionary Statements (Prevention):

P280 Wear eye/face protection.

P264 Wash with plenty of water and soap thoroughly after handling.

Precautionary Statements (Response):

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P311 if eye irritation persists: Call a POISON CENTER or doctor/physician.

Hazards not otherwise classified

No specific dangers known, if the regulations/notes for storage and handling are considered. If the product adheres to skin, irritation may occur when it dries.

Labeling of special preparations (GHS) in accordance with EC directives (No 1272 /2008)

Product contains the following components and may cause an allergic skin reaction: mixture of: 5- chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1)

The substance may cause sensitization of the skin on particularly sensitive individuals. Based on our experience and the information available, no adverse health effects are expected, if handled as recommended with suitable precautions for designated uses.

Labeling in accordance with EC directives (No 1272 /2008)

Emergency overview

IRRITANT Irritating to eyes.

3. Composition / Information on Ingredients

Chemical characterization: Water borne copolymerisate dispersion. Basis: Vinyl acetate, Acrylic Acid ester. Plasticizer free.

Substances Not applicable

Mixtures According to Hazardous Products Regulations (HPR) See details below

<u>CAS Number</u>	<u>EC Number</u>	<u>ID number</u>	<u>Content (W/W)</u>	<u>Chemical name</u>
9016-45-9	500-024-6	none	0.5 - 1.0 %	Nonylphenol, ethoxylate
55965-84-9		none	0.0 - < 10.0 ppm	mixture of: 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1)

<u>Components</u>	<u>1272/2008 CLP</u>	<u>Hazards Statements</u>
Isothiazol -3-one (3:1)	Acute oral toxicity - Category 4	H 302
	Skin corrosion / irritation - Category 2	H 315
	Serious eye damage / eye irritation - Category 1	H 318
	Skin sensitization - Category 1	H 317
	Acute aquatic toxicity - Category 1	H 400
Nonylphenol, eth.	Chronic aquatic toxicity -Category 3	H 412

4. First Aid Measures

Description of first aid measures

General advice:

Remove contaminated clothing

ROZACHIM AD

SDS EU/EN

If inhaled:

Remove the affected individual into the fresh air and keep the person calm. Assist in breathing if Necessary. Immediate medical attention required.

If on skin:

Wash affected areas with soap and plenty water. Seek medical attention at need.

If in eyes:

Flush with water for at least 15 minutes. Seek medical attention at need.

If swallowed:

Immediately rinse mouth and then drink plenty of water. Seek medical attention prompt.

Most important symptoms and effect, both acute and delayed

Symptoms: The most important known symptoms and effect are described in the labeling sector

Indication of any immediate medical attention and special treatment needed

Treatment by medical

5. Fire-Fighting Measures

Extinguishing media

Water spray, foam, dry powder.

Special hazards arising from substance or mixture

Hazards during firefighting:

No hazards known.

Advice for fire fighters

Protective equipment:

Should be equipped with self-contained apparatus.

ROZACHIM AD

Safety Data Sheet

According to regulation (EU) # 453/2010

STYACRYL V 700

SDS EU/EN

Further information

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations. Fire extinguishing method of surrounded areas must be considered.

6. Accidental release measures

Further accidental release measures:

High risk of slipping due leakage/spillage of product

Personal precautions, protective equipment and emergency procedures

Use personal protective clothing. Avoid contact with skin and eyes

Environmental precautions

Do not release untreated into natural waters

Methods and material for containments and cleaning up

For small amounts: Use absorbent material (e.g. sand, sawdust and some binders)

For large amounts: Pump off product

7. Handling and Storage

Precautions for safe handling

Handle in accordance with good industrial hygiene and safety practice. No special requirements.
Use ventilation.

Conditions for safe storage, including any incompatibilities

Storage conditions:

Store protected against freezing

Protect from temperature below: 5 °C

The packed product decomposed at low temperature or by frost.

Protect from temperature above: 50 °C

The packed product must be protected of temperature above 50 °C.

8. Exposure Controls / Personal Protection

Advice on system design

Ensure adequate ventilation.

Personal protective equipment

Respiratory protection:

Wear respiratory protection if ventilation is inadequate

Hand protection:

Chemicals resistant protective gloves

Eye protection:

Tightly fitting safety chemical goggles

General safety and hygiene measures:

Hands and/or face should be washed before breaks and at the end of the shift. Avoid skin and eyes contact.

9. Physical and Chemical Properties

Form: Liquid
Odour: Lowest
Colour: White
PH value: Approx. 4.0 -9.0

Information on: Water

Boiling point: 100 °C

Flammability: not flammable
Lower explosion limit: not applicable
Upper explosion limit: not applicable

Density: Approx. 1.05 g/cm³ 20 °C

SDS EU/EN

Relative density: Not date

Viscosity, dynamic: Approx. 3000 -8000 mPa.s

Solubility in water: Soluble

Particle size: 0.1 μm – 10.0 μm

10. Stability and Reactivity

Reactivity

No hazards reactions if stored and handle as prescribed.

Corrosion to metal:

Not anticipated

Oxidizing properties:

Not fire propagation

Chemical Stability

The product is stable if stored and handle as prescribed

Possibility of hazardous reactions

No hazardous reactions when stored according to instructions. The product is chemically stable.

Conditions to avoid

Avoid extreme heat

Incompatible materials

Metal salt

Hazardous decomposition products

Decomposition products:

Hydrocarbons

Thermal decomposition:

No decomposition reported

11. Toxicological information

Primary route of exposure

Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact. Skin contact may be a route of entry for liquefied gases.

Acute Toxicity /Effects

Acute toxicity

Assessment of acute toxicity: Virtually nontoxic after single ingestion. Virtually nontoxic after a single skin contact. Virtually nontoxic by inhalation.

The statement has been derived from the products or from similar products.

Oral

Type of value: LD50

Species: rat

Value :> 2,000 -10,000 mg/kg

Inhalation

Type of value: ATE

Value :> 5mg/l

Exposure time: 4h

Dermal

Type of value: ATE

Value :> 5,000 mg/kg

Assessments other acute effects

Assessment of STOT single:

Based on the available information there is no specific organ toxicity to be expected after single exposure.

Irritation / corrosion

Assessment of irritating effects: Irritating to eyes. Not irritating to skin. The product has not been tested. No data of irritation confirmed.

SDS EU/EN

Skin

Species: rabbit

Result: non-irritant

Method: OECD Guideline 404

Eye

Information on: **Nonylphenol Ethoxylate**

Species: Rabbit

Result: Risk of damage to eyes

Sensitization

Assessment of sensitization. The product contain a mixture of 5- chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1), (CAS#; 55965-84-9). The substance may cause sensitization of the skin on particularly sensitive individuals. Based on our experience and the information available, no adverse health effects are expected if handled as recommended.

Aspiration hazards

Not applicable

Chronic Toxicity /Effects

Repeated dose toxicity

Assessment of repeated dose toxicity: No adverse effects were observed after repeated exposure in animal studies. The product has not been tested. The statement has been derived from substances/products.

Genetic toxicity

Assessment of mutagenicity: The substance is not mutagenic. The product has not been tested. The statement has been derived from substances/products.

Carcinogenicity

Assessment of carcinogenicity: Whole of the information assessable provides no indication of carcinogenetic effect.

SDS EU/EN

Reproductive toxicity

Assessment of reproduction toxicity: Not expected to cause reproductive toxicity, based on the composition.

Teratogenicity

Assessment of teratogenicity: Product not tested.

12. Ecological Information

Toxicity

Toxicity to fish

LC50 (96h) > 100 mg/l (OECD Guideline 203)

Aquatic invertebrates

EC50(48h) > 100 mg/l Daphnia magna (OECD Guideline 202,1)

Aquatic plants

EC50 (72h) > 100 mg/l Scenedesmus subspicatus (OECD Guideline 201)

Microorganisms / Effects on activated sludge

Toxicity to microorganisms

DIN EN ISO 8192-OECD 209-88/302/EEP,P.C activated sludge, domestic /EC20 (0,5h) : >100mg/l

Persistence and degradability

Assessment biodegradation and elimination (H2O)

The product can be eliminated from water by absorption

Elimination information

>70% DOC reduction (OECD302B; ISO 9888; 88/302/EEC) easily eliminated from water.

Bio cumulative potential

Bioaccumulation potential

Based on its structural properties, the polymer is not biologically available. Accumulation in organism is not to be expected.

Mobility in soil

Assessment transport between environmental compartments

No data available

Additional information

Absorbable organically-bond halogen (AOX)

No data available

Other Ecotoxicological advice:

Do not release into natural water. All the present, no negative effects expected,

13. Disposal considerations

Waste disposal of substances:

Dispose in a licensed facility. Do not discharge into drains waters.

14. Transport Information

Land transport

TDG

Not classified as a dangerous good under transport regulations

Sea transport

IMDG

Not classified as a dangerous good under transport regulations

Air transport

IATA/CAO

Not classified as a dangerous good under transport regulations
